# MEET ANGELA

Founder, Principal, Creative Director at TRIO Environments, a nationally acclaimed, full-service interior design and merchandising firm launched in 1999 with offices in Denver and New York.

*"I am inspired by the unknown, the idea of constantly reinventing oneself and pushing creative boundaries."*

*"My collaboration with Phillips Collection is the perfect balance of artistic expression, authenticity, and finding beauty in natural forms. One of my main motivators is a constant drive towards artful expression and a feeling that can only be captured by authentic beauty. My love of design comes from the notion that things are meant to be beautiful and that our intention to find and create such beauty comes through collaboration."*

Agate is characterized by its fine grain and bright color. It is most commonly found in volcanic rocks or ancient lavas, where silica is melted and deposited in layers upon the walls. We prize the biggest pieces and slice them as thin as possible to highlight its unparalleled beauty.

**GREY STONE.** Weather worn woods left out in the sun and rain for months at a time take on a wonderfully-aged patina. By cerusing the wood and applying a multi-step finish, we achieve a stone-like effect which preserves the rough texture and rich color of the wood.

TH94570 · 60x16x18”H · Chamcha Wood

**NATURAL.** Chamcha is a fast-growing and exotic subspecies of Acacia that is prized for its richly figured grain and distinct sap line. The natural beauty of the wood is enhanced by an understated and durable catalyzed, satin clearcoat. Our natural finish is a celebration of the grain of the wood in its original form.

# HONEY DRUM PEOPLE

Made from honey drums, this wall piece tells the sweet story of the people who collect honey in Northern Thailand and an interpretation of the clothing they wear. The drums can only be used a handful of times before they oxidize. In repurposing the metal, they are able to bring in an additional source of income beyond the bees they rely on to produce the honey. This recycled art is not only great on any wall, but it also has a beautiful story behind it.

# TIMBOEL

Timboel is an award-winning artist and sculptor from the village of Kasongan in Yogyakarta, Indonesia. He is best-known for his large-scale masterpieces like his Pipe Sculptures featuring Bulls and Mustangs. The sculptures are made from reclaimed cut pipe that are individual placed and welded together to create astonishing, complex forms. He works with all forms of metal, including aluminum castings of dresses, humans and animals. Each piece is hand-sculpted from sheets of metal and clay, and after a thorough polish, the sculptures come to life.

# LIGHTING

We don't want your guests to walk into the room and find the lamp to be perfectly suitable for reading. We want them to walk in and say "wow!" That's how we think about lighting here at Phillips Collection. We have a great range of materials and specialize in dramatic table lamps, floor lamps and fixtures.
